As a dedicated and highly motivated engineering student with a strong foundation in coding languages such as Java and Python, I possess a solid understanding of intermediate-level data structures and algorithms. My coursework has equipped me with the skills to tackle problem-solving tasks effectively. While actively exploring the field, I have gained valuable insights into the implementation of artificial intelligence and machine learning through Python libraries.

Eager to apply my theoretical knowledge in a practical setting, I am seeking my first internship opportunity. I am excited about the prospect of contributing my skills and enthusiasm to your company and am confident that my commitment to excellence will make me a valuable asset to your team

Education

BE/B.Tech/BS in Artificial Intelligence & Machine Learning August 2022 - August 2026
Aditya Engineering College at Surampalem,Gandepalli Mandal, East Godavari District,

Key Skills

- **Java**
- **python , & its libraries in AI**
- **Data Structures and Algorithms**
- **beginner in IOT**

Certifications

machine learning course certification   September 2023
Internshala

https://acrobat.adobe.com/id/urn:aaid:sc:ap:022c776a-f744-4b60-becc-d55d96ca6d4d

JNTUK , ML workshop certificate   March 2023
JNTU kakinada , by ProTrex in association with E-cell IIT Bombay

https://acrobat.adobe.com/id/urn:aaid:sc:ap:43c35aab-4faa-498f-9e72-f16915defe41

IOT applications webinar certificate   December 2023
